

Gapminder

1. Watch the following Ted talk (https://www.ted.com/talks/hans_rosling_at_state#t-58852)
2. Go to <http://www.gapminder.org/world/>
3. Pick 2 variables that you think are correlated. Attach a screen shot of your graph.
4. Describe your graph and the data, including the general trends that you observe over time
5. What is the interpretation of the data?
6. Pick 1 specific country that you think is interesting and describe how the data from this country relates to the data for all the other countries
7. Do some research. Can you relate your findings to specific and/or general historical events?
